

# Construction Cost Estimator

CSE6748 - Applied Analytics Practicum

## Exploratory Data Analysis

Visualize and understand the construction project data

[View EDA](#)

## Model Comparison

Compare different ML models and their performance

[Compare Models](#)

## Performance Dashboard

View current model performance metrics

[View Dashboard](#)

## Cost Estimator

Make real-time construction cost predictions

[Estimate Cost](#)

## Data Overview

PCS historical project database structure

[View Schema](#)

## Documentation

API documentation and user guide

[View Docs](#)

## Project Team

Krishna Aryal

Data Engineering & Model Development

Kumar Sawan

Feature Engineering & Optimization

Neema Kafwimi

Model Evaluation & Deployment

**Course:** CSE6748 - Applied Analytics Practicum | **Institution:** Georgia Institute of Technology

**Semester:** Fall 2025 | **Client:** Construction Cost Database LLC | **Target MAPE:** < 25%
