

2025 FALL PRACTICUM — STUDENT EVALUATION

Team 4 (Aryal, Kumar, Kafwimi)

Message from the Construction Check Team

Thank you for choosing to work with us this semester. We appreciate the time, effort, and focus your team brought to this project. We hope this experience offered meaningful exposure to an industry long overdue for innovation. Construction faces more than \$1.6 trillion in annual cost overruns, and your team's work this semester contributed directly to our mission to help change that. We wish you continued success in your careers and hope you carry forward the mindset of challenging outdated systems and building solutions that matter.

Feedback

- One of the most comprehensive and polished reports.
- Strong modeling, evaluation, and engineering workflow.
- Could streamline certain sections for executive audiences.
- Near industry-level deliverable.
